QUALITY ASSURANCE POLICY

The Management of Australian Lining Company Pty Ltd is committed to the task of implementing and maintaining an effective quality system that has as objectives:

- To ensure all employees strictly adhere to the Quality Control standards published in the Company's Construction Quality Control manual and the Company's Administration Quality procedures.
- Establishing and maintaining close working relationships with our clients and other project partners such as suppliers and subcontractors which will achieve a win for all result.
- Aiming to provide the customer with the highest quality products and service as well as identifying and exceeding their needs and expectations where possible.
- Provision of on-going training and development for our employees to enable them to develop their skills and knowledge in order to reach their full potential in their allocated roles.
- Promoting Quality Assurance as an attitude amongst the company's employees and ensuring that this attitude prevails for each employee which in turn also achieves employee satisfaction with their own personal workmanship.
- Monitoring and addressing Non conformances to identify weaknesses & vulnerabilities with quality systems.
- Continually monitoring the Quality Control Procedures and observing the products and services they produce as well as seeking out the best materials for each application and monitoring and observing their performance. Continual reference IAGI (International Association of Geosynthetics Installers) and GRI (Geosynthetic Research Institute) to assist the company in achieving this objective.

Implementing this policy is essential for the long-term competitive success of the company as well as being essential in retaining its long held respected name amongst the respective industries it is engaged in.

Roger Bishop
Managing Director
